and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use a Tracfone wireless phone for emergencies and car trouble when traveling. I do not use many minutes per month, so the low cost of this program works well. The price that most national wireless companies charge for their minimum programs is ridiculous, and have far more minutes than I could possibly use.

So, please help keep the price down, by NOT adding charges for us low use/emergency use wireless customers.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Wayne Martens
